

AMENDMENTS TO THE CLAIMS

Claims 1 – 20 (canceled).

Claim 21 (new): A plastic container, which comprises:

a hollow body of plastic material having a lower supporting base, a sidewall extending upwardly from the lower base, and an upper portion extending upwardly from the sidewall and consisting of a top wall, said top wall including two openings spaced from each other, wherein the sidewall includes at least three inwardly depressed channels extending at least in part along the sidewall of the container which are spaced from each other, each at least in part having a wavy configuration;

two label panels spaced from each other, one on the top wall between the two openings and one on the sidewall; and

an integral handle at least in part on the sidewall.

Claim 22 (new): A container according to Claim 21, wherein said container has an essentially rectangular configuration, with two opposed relatively larger sidewall sections and two opposed relatively smaller sidewall sections.

Claim 23 (new): A container according to Claim 22, wherein at least one sidewall section is relatively flat so that the container may be supported on said flat sidewall section.

Claim 24 (new): A container according to Claim 21, wherein said top wall extends essentially perpendicular to said sidewall.

Claim 25 (new): A container according to Claim 22, wherein the sidewall sections are connected by rounded corners.

Claim 26 (new): A container according to Claim 21, wherein at least one of said channels extends from the sidewall onto the lower base.

Claim 27 (new): A container according to Claim 21, wherein at least one of said channels completely and continuously circumscribes the sidewall.

Claim 28 (new): A container according to Claim 21, wherein at least two of said channels extend continuously along at least three sidewall sections.

Claim 29 (new): A container according to Claim 22, wherein one of said label panels is located on a relatively smaller sidewall section.

Claim 30 (new): A container according to Claim 22, wherein the handle is located on a relatively smaller sidewall section.

Claim 31 (new): A container according to Claim 30, wherein the handle is located on a relatively smaller sidewall section adjacent a label panel.

Claim 32 (new): A container according to Claim 22, wherein at least one of said channels extends continuously over two relatively larger sidewall sections and one relatively smaller sidewall section.

Claim 33 (new): A container according to Claim 22, wherein said container is a blow molded plastic container with a capacity of at least one gallon.

Claim 34 (new): A container according to Claim 22, wherein said container is a blow molded plastic container with a capacity of at least two gallons.
